

January 22nd, 2011

Dear NW Biodiesel Network Members.

We are seeking new Board members. If you are interested, please submit a current resume and a Statement of Interest (not more than one page) why you want to join the Board to nwbiodiesel@gmail.com. New two-year terms start March 1, 2011.

Serving on the Board is a great way to gain experience and build your resume, **while having fun with new friends**. Other benefits of serving on the Board are:

- Helping to spread the word that biodiesel is a viable alternative to petroleum.
- Networking opportunities with industry representatives and others in the renewable energy arena.
- Learning more about the exciting developments in renewable energy.
- Helping to end our dependence on energy derived from petroleum.
- Serving the community—vital to building our society.

The NW Biodiesel Network has new and exciting projects underway, including serving on the Sustainable Aviation Fuels Northwest, and our recent invitation to join the Roundtable on Sustainable Biofuels. What we make of these opportunities will be shaped by our Board, and the involvement of the Board members in these organizations.

We are seeking candidates with a desire to promote alternative renewable energy. However, we are particularly interested in candidates with knowledge and expertise in:

- Accounting
- Event Tabling
- Law (Non-Profit related)
- Volunteer Coordination
- Fundraising/Grant Writing
- Marketing and Publicity

Please Email your resume and Statement of Interest two documents, and questions, to nwbiodiesel@gmail.com. Current Board members will be available to answer your questions at our November 23rd monthly meeting, or you may email the Board at the above address.

The NW Biodiesel Network is a 501(c)3 non-profit organization, led by a Board of Directors. Each year we elect new Board members to replace those Board members whose terms are expiring.

We are a working Board of Directors, meaning that we both provide direction for the Network and we do the work to make it happen. More importantly, it is a great way to meet new friends and have fun as we help spread the word about Biodiesel.

Thanks,

NW Biodiesel Network Board of Directors
